Summary

A final year B.Tech[AIT] student passionate about building robust solutions with .NET Core , Angular, JavaScript, python and SQL. Hands-on experience delivering full-stack projects such as SwagTix (real time ticket-booking platform) and MyTodoo (cloud-synced task manager). Known for strong fundamentals, and Quick learning, proactive team player eager to drive innovation as a .NET/Core developer in a dynamic IT firm.

Technical Skills

- **Programming Languages:** C#, C++, Python, SQL
- **Web Technologies:** HTML, CSS, JavaScript, Angular
- **Frameworks & Architecture:** .NET Core, MVC Design Pattern
- **Databases:** MongoDB, SQL Server
- **Tools & Platforms:** Git, GitHub, Visual Studio, Visual Studio Code

Education

Degree: Bachelor of Technology | College of Agricultural Information Technology

University: Anand Agricultural University (AAU), Anand

Dates: 2022 – 2026

OGPA: 7.4 / 10

Projects

SwagTix – Real-Time Event Ticket Booking System

Built a full-stack platform using .NET Core 8 (MVC), and SQL Server. Implemented real-time seat selection and concurrent booking for multiple users. Designed role-based access and dynamic pricing using a JSON-driven engine.

MyTodoo – Task Management App

Developed a responsive task manager using .NET Core MVC and SQL Server. Enabled seamless AJAX-based task updates and CRUD operations. Integrated secure user login with personalized data handling.

Certifications

- Angular Fundamentals – Self-Paced Course (2024)
- MongoDB – Self-Paced Course (2025)
- Python – Beginner to Advanced Course – GeeksforGeeks (2025)

Achievements

- Completed 8+ mini projects across web platforms (Hacker News,Blog Web App,Personal Calendar,etc..)
- Contributed to a Python-based car detection system using computer vision (PyTorch,YOLO)
- Volunteered in college-level activities under NSS (National Service Scheme)
